In addition to promoting your books assiduously online, there are a number of other methods that may enable you to sell more books.

One is to present something away free of charge together with your e book, similar to a helpful bonus item. Or bundle several ebooks under one price, which lowers the price for every ebook if they have been bought separately.

An effective method for determining a price is to ship out a survey to your present customers. If these prospects have already purchased an book from you, ask for his or her opinion in terms of

price. Do this by making a sales web page for the new e-book, but do not include a value on that page. As an alternative, add numerous links to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

Another strategy is to test out prices by creating a number of duplicate sales pages with completely different costs on every page. Be certain that your gross sales copy is strictly the identical on each web page, and consists of your selling-deal with sentence. Then determine for every web page the conversion ratio between guests to your site and gross sales of your book. This may let you know what your optimum price is.

Ultimately, should you've written a guide that solves a drawback or presents a brand new technique, your e-book will herald both traffic and profits. So you should definitely write that promoting-deal with sentence that sums up what downside your e-book solves and what the benefits of your 1479 e book will be to the purchasers who purchase it. And then watch your market come to you!
