and promotional materials, and each time anybody asks you about your ebook.

An effective method for figuring out a price is to send out a survey to your current customers. If these clients have already purchased an e-book from you, ask for their opinion in terms of price. Do this by creating a sales page for the brand new e book, but do not include a value on that page. Instead, add various hyperlinks to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

Another strategy is to test out costs by creating a variety of duplicate sales pages with completely different prices on every page. Make sure that your gross sales copy is exactly the same on each web page, and includes your selling-handle sentence. Then determine for every web page the conversion ratio between visitors to your website and sales of your book. It will tell you what your optimum value is.
