An effective approach for determining a price is to send out a survey to your current customers. If these clients have already bought an book from you, ask for his or her opinion in terms of price. Do this by making a gross sales web page for the new e-book, but do not include a value on that page. As a substitute, add a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other strategy is to check out prices by creating a number of duplicate sales pages with completely different prices on each page. Ensure that your gross sales copy is strictly the same on

every web page, and includes your selling-deal with sentence. Then work out for each page the conversion ratio between visitors to your web site and gross sales of your book. It will tell you what your optimum value is.

In the end, if you've written a guide that solves a drawback or presents a new method, your e book will usher in both traffic and profits. So make sure to write that selling-deal with sentence that sums up what downside your e book solves and what the advantages of your 2338 e book will likely be to the purchasers who buy it.
