If these customers have already bought an e-book from you, ask for their opinion when it comes to price. Another technique is to test out prices by creating a variety of duplicate sales pages with different costs on every page. Be sure your gross sales copy is strictly the similar on each web

page, and includes your promoting-handle sentence. Then determine for every page the conversion ratio between visitors to your website and sales of your book. This can tell you what your optimum price is.
